

Petition Opposing the Leduc County Draft Land Use Bylaw

The undersigned strongly oppose the announced amendments to the Leduc County Land Use Bylaw that would weaken the legal protection now given to the North Saskatchewan River Valley Watershed and other watershed/wildlife areas throughout the County by allowing, on a permitted or discretionary basis, natural resource extraction and other uses that could endanger wildlife, reduce property values and degrade the quality of life for residents in and near those areas.

We also object strongly to the fact that these amendments are scheduled to be finalized in August and September, when so many people affected are tied up with harvesting or are absent on vacation.
